SPECIAL ANNOUNCEMENT!
Educational Debt Management Help for the Graduating Class of 2013

The American Association of Colleges of Osteopathic Medicine (AACOM) and its Council of Student Financial Aid Administrators (CSFAA) are pleased to announce the availability of two new educational debt management presentations designed specifically for upcoming osteopathic medical school graduates in the Class of 2013:

Repayment Strategies for Osteopathic Medical School Graduates

- Common sense approach to helping upcoming graduates select a repayment strategy to meet their repayment and career goals and objectives during residency, fellowship, and practice
- Great complement to online or other counseling you are providing your upcoming graduates and ideal as a companion to Exit Interview counseling

Income-Related Repayment Plans, Consolidation, and Public Service Loan Forgiveness as Components of Your Repayment Strategy

- Easy to understand description of income-related plans, consolidation, and Public Service Loan Forgiveness – what they are and how they can be used in tandem as part of an effective repayment strategy
- Great foundation for the new Pay-As-You-Earn (PAYE) repayment plan

These presentations are offered by AACOM and its CSFAA as part of a continuing commitment to help provide you and your staff with the best educational debt management help possible for your students and future alumni. Both presentations are delivered by Paul Garrard, an independent student loan consultant, under contract with AACOM to provide you and your students with this service.

You and your borrowers can access these two presentations on the AACOM web site at http://www.aacom.org/people/councils/Pages/CSFAA.aspx.
